

Project Initialization and Planning Phase

Date 30 September 2026
Team ID SWTID-2026-3630
Project Name CraftComic - AI comic story creator
Maximum Marks 8

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or aspiring comic creator.	Create an engaging comic story.	Has limited time and difficulty turning ideas into complete scenes, dialogue, and panels.	Creating a comic manually requires separate skills for writing, character design, and panel planning.	Frustrated and unsure how to turn ideas into a finished comic.
PS-2	A user with a story idea but limited drawing skills.	Turn my idea into a visual comic.	Cannot easily create consistent characters and comic panels without artistic skills.	Traditional comic creation can require drawing expertise and time-consuming editing.	Excited about the story but unable to visualize it easily.
PS-3	A comic creator who wants to revise a story quickly.	Edit scenes, dialogue, and panels efficiently.	Reworking a comic manually takes time and can disrupt the flow of the story.	Changes often require repeated writing, drawing, and panel adjustments.	Restricted and slowed down during the creative process.
