

Coding & Solution

Date	30 September 2026
Team ID	SWTID-2026-3630
Project Name	ComicCraft - AI Comic Story Creator
Team Lead	Sivapragasam S
Team Members	Deepak P, Lucky J, Elanthirayan S
Maximum Marks	5 Marks

Coding & Solution

Function / Area	Implementation	Purpose
Core Function 1	generate_outline() in gemini_flash.py	Creates structured 5-panel outline.
Core Function 2	generate_story() in gemini_pro.py	Creates narration and dialogue.
Core Function 3	generate_image() in image_generator.py	Creates comic-style illustrations.
Core Function 4	build_comic_layout() in layout_builder.py	Combines images and story content.
Core Function 5	save_pdf() in exporters.py	Compiles images and narration into PDF.
Backend Routes	/, /generate, /generate-comic/json, /export-success, /test-image	Supports workflow and testing.
Input Handling	Form fields + PromptRequest JSON schema	Validates supported input paths.
