

Data Flow Diagram

Date	30 September 2026
Team ID	SWTID-2026-3630
Project Name	ComicCraft - AI Comic Story Creator
Team Lead	Sivapragasam S
Team Members	Deepak P, Lucky J, Elanthirayan S
Maximum Marks	2 Marks

The DFD maps how user inputs move through the ComicCraft frontend, FastAPI backend, AI modules, layout builder, and PDF exporter.

External Entity	Process	Data Store	Data Flow
User	1. Collect Inputs	Prompt / panel data	Prompt, character, setting, tone, art style
	2. Generate Story	AI model responses	Outline → narration/dialogue
	3. Generate Images	static/panels	Panel image files
	4. Build Layout	Panel + story structure	Panel data + images
	5. Export PDF	static/exports	Final downloadable PDF

Flow: User → index.html → routes.py → Gemini Flash → Gemini Pro → Stable Diffusion → layout_builder.py → exporters.py → preview/PDF.
