

Solution Requirements

Date	30 September 2026
Team ID	SWTID-2026-3630
Project Name	ComicCraft - AI Comic Story Creator
Team Lead	Sivapragasam S
Team Members	Deepak P, Lucky J, Elanthirayan S
Maximum Marks	4 Marks

Define Functional and Non-Functional Requirements

Functional Requirements

- Accept story prompt and personalization inputs.
- Validate form and JSON input.
- Generate a structured 5-panel outline.
- Generate detailed narration and character dialogue.
- Generate comic-style illustrations.
- Build a panel layout.
- Preview the comic.
- Export the comic as PDF.
- Provide supported API endpoints.
- Handle errors with HTTPException and try-except.

Input Requirements

Story Prompt; Character Name; Setting; Story Tone; Art Style.

Output Requirements

Panel-by-panel comic content, illustrations, preview page, and downloadable PDF.

Non-Functional Requirements

- User-friendly interface.
- Modular and maintainable Python code.
- Dynamic template rendering.
- Local deployment support.
- Protected API credentials through environment variables.
