

Technology Stack

Date	30 September 2026
Team ID	SWTID-2026-3630
Project Name	ComicCraft - AI Comic Story Creator
Team Lead	Sivapragasam S
Team Members	Deepak P, Lucky J, Elanthirayan S
Maximum Marks	2 Marks

Define Your Technology Stack

The selected stack supports a modular AI-assisted workflow from user input to comic PDF export.

Component	Technology	Justification
Programming Language	Python	Primary application language.
Backend	FastAPI + Uvicorn	API and local ASGI deployment.
Frontend	HTML, CSS, Jinja2	Input and preview templates.
Story Outline	Google Gemini 1.5 Flash	Fast structured 5-panel outline.
Story Generation	Google Gemini 1.5 Pro	Detailed narration and dialogue.
Image Generation	Stable Diffusion + Diffusers	Comic-style panel illustrations.
PDF Generation	FPDF	Final downloadable comic.
Supporting Libraries	python-multipart, transformers, Pillow, accelerate	Input, AI/image and runtime support.
Version Control	Git	Source-code versioning.
Deployment	uvicorn app.main:app --reload	Local development deployment.
