

Empathy Map

Date	30 September 2026
Team ID	SWTID-2026-3630
Project Name	ComicCraft - AI Comic Story Creator
Team Lead	Sivapragasam S
Team Members	Deepak P, Lucky J, Elanthirayan S
Maximum Marks	4 Marks

Persona: a student, hobbyist, storyteller, or non-artist who wants to create a personalized comic without manually handling every creative and technical step.

SAYS	THINKS
"I have a story idea but creating a full comic takes too much work."	"Can AI handle the story and images while I control the creative inputs?"
"I want to choose the character, setting, tone, and art style."	"I need the final result to be easy to preview and download."
DOES	FEELS
Enters prompts and preferences, generates a comic, previews panels, and downloads the PDF.	Creative and curious, but may feel limited by manual writing, illustration, and layout work.

Customer Goal

Create a personalized, visually engaging comic from a small amount of input with minimal manual production effort.
